Hello Erin and Erika,

I hope this finds you well. Erika - it was great to chat with you and go over with you our review of your questions on what is included as an essential service as it relates to Governor Newsom's Executive Order N-33-20.

To reiterate our conversation, our Executive Team, Director of Public Health and in consultation with our Medical Director Dr. Ken Cutler, the below activities, as they relate to public safety, fire mitigation, land management and agriculture are considered essential services. Specifically, Bear Yuba Land Trust's activities as described below are considered essential services:

1. Monitoring trails/trailheads to ensure public safety
2. Conduct emergency maintenance of trails to ensure public safety
3. Posting signage at trailheads to ensure social distancing
4. Monitoring remote preserves and conservation easements for security purposes and regulation compliance
5. Conducting land management activities for fire mitigation and agricultural purposes

Of course, if you have any other question, please do not hesitate to reach out. Thank you.

Best Regards,

Jeffrey Thorsby
